Acephate 90WDG

Insecticide

A superior formulation of dust-free water dispersible granules that dissolve quickly and uniformly into spray solution.

Tide International USA, Inc. is committed to providing U.S. growers with quality post-patent agrichemicals at competitive prices. Ask your local agrichemical dealer about Tide products.

Acephate 90WDG

Insecticide

Advantages of Tide Acephate 90WDG

- Tide Acephate 90WDG is an extruded granular product.
- Granules dissolve readily into spray solution and stay in suspension without the possibility of plugging spray nozzles.
- It is a cost effective and convenient use insecticide.
- It is a wide spectrum systemic insecticide with contact and stomach action.
- Experiments show high crop tolerance relative to crop phytotoxicity.
- Less adverse odor than other competitive Acephate products.
- Compatible with other pesticides.
- Restricted-Entry Interval = 24 hours.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed or inhaled. Causes moderate eye irritation. Avoid contact with eyes or clothing.
